

Here we are with Springtime upon us! The days are getting noticeable longer which is lovely. 2020 has been quite a year so far and currently we are still living in level 2 while the second wave of COVID-19 is present. I certainly would not have thought we would have a situation like this in life to deal with, however we are doing very well - ALL of US.

The transition to level 2 from our earlier lockdown was a great relief and we did so very well with the initial wave. There was a flurry of activities planned to celebrate this familiar freedom and it was great seeing everyone out and about again. There are a number of these activities highlighted on the following pages. We understand how hard it was during lockdown, so it is great to see the social activities happening again.

The impact of the lockdown did hamper the plans I had in place for work on the gardening front. Fortunately, we have had good weather over winter and this has continued. We are nearing the completion of a few of these projects and while they look good now – once completed I know they will be even better. The additional work and plan put into the lawns is evident as they are looking healthy and lush- a great feeling.

We have seen a couple of changes to our gardening team over the past few months. Max has joined us and is a great addition to our team. Many of you will have had a chance to meet and introduce yourselves I am sure. It is great to have him join our small team. On a sad note we have said goodbye to Mark. Mark has been with the team for a couple of years and it was an absolute pleasure to have him on board. We wish him all the very best. I am currently recruiting for this position.

We have for some time been holding a social event specially for the ladies – “Our Ladies Get Together”. This has been a monthly event to allow ladies a chance to meet and mingle in a more subtle manner. This has been well received and attended. From this success we rolled it out also to a “Men’s Get Together” – (on a different night of course) – It is great to see this also being popular and embraced as a positive social opportunity. It continues to show our willingness to look at new options and to cater for situations or individuals outside our normal environments, that provides the social engage we desire on thrive on.

Our lovely Village continues to grow as we fill our remaining villa’s – while COVID did have an impact on the sale of Villa’s and to the whole sector, we have had good interest and activity. We have welcomed in 2 new couples in the last couple of weeks and over the next month we will welcome in another 4 households. Keep being safe and mindful out there, and lets enjoy Spring.

90th BIRTHDAY CELEBRATION

Residents came together to celebrate three special 90th Birthdays for Clarrie Hoban, Jim Dekker and David Palmer. There were speeches, cake and everyone brought a plate to share. What an amazing milestone.

Ukulele Group

In July a group of enthusiastic beginners formed the Copper Crest Ukulele Group. The group meets fortnightly and due to everyone's diligent practicing, they have now progressed to be a great sounding cohesive group, enjoying making music together. You should all be proud of yourselves. This goes to show that you are never too old to take up a new hobby and learn a new skill.

A BIG WELCOME to our new residents....

Mike Bowe - Villa 137

Graeme Brown and Gina Beaumont - Villa 102

Brian and Kate Gore - Villa 32

Welcome

High Tea & Exhibition

Our residents experienced a very successful exhibition that made us so proud of all the talent in our Village. Residents were invited to exhibit arts and crafts that they had made. The displays were set up in the activities area which was perfect to showcase the wealth of talent.

It was open to all residents to view throughout the day to ensure everyone could come and walk through the exhibition. Some of the many pieces were quilts, paintings, sculptures, jeweled kimono's, needlework, knitting, and wood making.

During the afternoon we held a high tea in the dining room for over 60 residents. It was a stunning table display of antique china cups and saucers, milk jugs and sugar bowls, that would do our mother's proud. Every table had a variety of teas to taste and we were spoilt with a catered tiered platter of posh baked scones with jam and cream, cucumber sandwiches and cupcakes. With blackboards on each table and a note on the history of tea, the detail and effort by the Social Committee did not go amiss.

In summary it was well received by everyone and was a wonderful way to admire such a great array of arts and crafts.

High Tea

Daffodil Morning Tea

A great turnout of residents arrived with a small plate for morning tea. A wonderful Raffle "Quilt" was donated by Audrey and Trevor Coleman. Congratulations to Sherrill Ingley who won this raffle.

A total of \$742.00 was raised for the 30th Anniversary for Daffodil Day.

What Cancer Cannot Do

"Cancer is so limited... It cannot cripple love, It cannot shatter hope, It cannot corrode faith, It cannot destroy peace, It cannot kill friendship, It cannot suppress memories, It cannot silence courage, It cannot invade the soul, It cannot steal eternal life, It cannot conquer the spirit."

SOUPER SUNDAY LUNCH

Residents came together for soups and entertainment from "Around the World". Entertainment was provided by our resident Line Dancers, wearing costumes representing the different countries. The dancing was followed by a selection of soups from around the world. It was a great success and enjoyed by all.

Living Well Apartments Progress

The Living Well Apartments construction continues to progress well. There is much activity now as planning is starting for the handover and the process of how we commission this from a construction project to a usable entity.

We have a presentation planned for the Village in the near future, sadly this has been delayed a number of times due to COVID- this will be a great opportunity to show our residents how far we have got to and to inform them of what a move would involve.

Below are some recent pictures and a few artist impressions of what the final product will look like. Looks amazing, and I am excited about the project ahead for us once it is handed over for operation. I look forward to being able to show you more soon.

SALES OFFICE - OPENING HOURS

Monday - Friday 9am - 4pm
