

Innovative independent living for over-65s

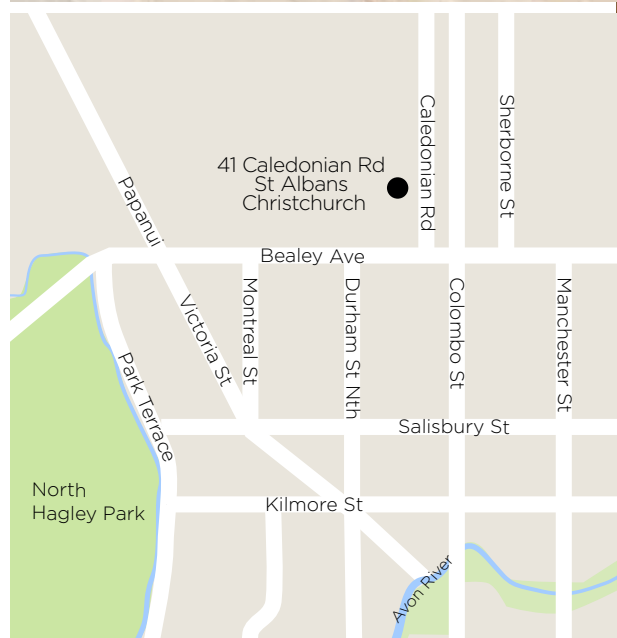

Our new Living Well two-bedroom apartments for independent residents come with use of shared electric cars, a weekly house clean and three nights off cooking every week – all included in your service fee. Every apartment has spacious open-plan living that opens onto a private patio or balcony, full kitchen, ensuite bathroom, guest toilet and walk-in wardrobe. All appliances are included.

Introducing Laura, our sales manager

You can meet Laura during our open home times or make a personal appointment to view our show apartments at a time that suits you.

An Arvida Living Well Community

Summer punch and antipasto platters

Open Home: Thurs 28, Fri 29 & Sat 30 January, 11am-3pm

Is St Albans your kind of place? Come and see for yourself.

Life at St Albans is about camaraderie, inclusiveness and helping each other. Most of our activities and outings are led by residents, who really enjoy being involved with running the community. St Albans has what you need to feel fulfilled and connected. You'll also have access to support and care services that make every day easier. Come and see what we mean at our open home this week.

An Arvida Living Well Community

A modern 65+ community in a first-class location with convenient in-house facilities

As a modern retirement community close to the exciting centre of Christchurch, St Albans offers you the best of both worlds. On one hand, you're close to shops, restaurants, parks, galleries and historic places. On the other hand, you have easy access to care and support, as well as in-house facilities that make everyday life more enjoyable and fulfilling.

Independent and assisted living that keeps you in the driving seat

If you want to live independently within St Albans, we have new Living Well apartments that are cleverly designed to make every day more enjoyable and help you maintain your self-sufficiency for as long as possible.

If you're at the stage where some help is required, we have beautiful serviced apartments for assisted living, complete with under-floor heating, double glazing and private balconies. To get the support you need, you can choose from one of our care packages or create your own tailored package of services.

Multiple levels of care and support for the future

St Albans offers a continuum of care. Our rest home and hospital-level rooms are in one central building, with easy access to the dining room, lounges, activities and facilities. Care residents have full control over how their days unfold, such as when they have breakfast and what activities they do. At St Albans, your personal freedom is valued and respected.
