A brief explanation of any of the figures above necessary to enable the figures to be understood	<p>See also other attached documents (interim report, news release, results presentation and distribution notice).</p> <p>* Underlying profit is a non-GAAP measure and differs from NZ IFRS profit for the period. Underlying profit does not have a standardised meaning prescribed by GAAP and therefore may not be comparable to similar financial information presented by other entities. The Directors have provided an underlying profit measure in addition to IFRS profit to assist readers in determining the realised and unrealised components of fair value movement, one-off items and tax expense in the Group's income statement. The measure is used internally in conjunction with other measures to monitor performance and make investment decisions. Underlying profit is a measure which the Group uses consistently across reporting periods. Underlying profit is used to determine the dividend pay-out to shareholders.</p>
